

## ABOUT ME

I'm a final-year B.Des student at Symbiosis Institute of Design, Nagpur, with a focus on UI/UX Design while working as a freelance Brand Designer. I am passionate about creating clean, aesthetic, and user-centered digital experiences through minimalism, glassmorphism, and thoughtful use of whitespace, with a growing interest in Spatial Product Design, Immersive Experience Design, and 3D Modeling.

## DESIGN SKILLS

- Product Design

• Design Systems

• User Interface Design

• Responsive Design

• User Experience Design

• Brand Identity Design

• User Research

• Visual Storytelling

• Information Architecture

• Video & Reel Editing

• Product Thinking

• AI-Assisted Design

## TOOLS SKILLS

- Figma

• Figma Make/ Figma Agent

• Adobe Illustrator

• Claude (Code & Design)

• Adobe Photoshop

• Antigravity/VS Code

• Adobe After Effects

• Adobe Firefly

• Framer

• ChatGPT/Codex

• Canva

• Blender

## ACHIEVEMENTS

Best Overall Pitch Winner | SID Shark Tank 2026

(23rd March - 27th March 2026)

- Awarded the Best Overall Pitch for developing Viraasat, a luxury heritage platform that blends premium handcrafted collections with a curated digital marketplace, supported by a complete brand identity, packaging, and digital presence for traditional artisans.

Double Award Winner | Vertical Design Studio 2025

(28th July - 1st August 2025)

• Received the Best Interactive Excellence Award and Best Technical Execution Award for collaboratively designing Phoenix, an interactive installation using cardboard as the primary material. The exposed corrugated cardboard texture shaped the phoenix, while floating letterforms represented the continuous flow of thoughts and the kinetic wing mechanism symbolized moving through them.

## EXPERIENCE

UI/UX Design Intern | Gloitel Consulting Pvt. Ltd.

(20th May - 18th July 2026)

- I've designed user-centered interfaces for web applications and dashboards, contributing to large-scale website redesigns, UX case studies, design systems, and responsive digital experiences. Working closely with developers, I've leveraged AI for design exploration while applying minimalism and glassmorphism to deliver scalable, visually consistent, and user-friendly solutions.

Freelance Brand Designer

(Feb 2025 - Present)

- I've worked on complete branding for startups, local businesses, and academic projects from concept to execution. My work includes logo design, visual identity, packaging, social media creatives, reels, invitations, posters, banners, and other creative brand assets.

## PROJECTS

- Gym Management Dashboard (Internship)

Developed the complete design foundation for a Gym Management Dashboard, including the design system, visual identity, typography, color palette, grid layout, reusable components, and variants. Designed multiple management modules, intuitive user flows, interfaces and forms, ensuring consistency and efficient developer handoff.
- Bharat Sanskriti Website (Internship)

A premium website showcasing a futuristic smart city in Dubai inspired by Indian culture, featuring luxury residences, investment opportunities, wellness centers, corporate districts, retail destinations, and immersive lifestyle experiences through a minimalist, glassmorphism-inspired design language.
- Gloitel Corporate Website Redesign (Internship)

Redesigned a 60+ page corporate website by developing responsive interfaces, reusable components, variants, and a scalable design system, ensuring visual consistency and seamless developer handoff.
- SpeedLine Couriers Logistics Dashboard (Academic)

Designed a logistics dashboard to streamline shipment tracking, fleet management, and operational workflows through an intuitive, data-driven interface.
- VR Mall Navigation App (Academic)

Designed an immersive VR mall navigation experience with indoor wayfinding, store discovery, parking assistance, and interactive navigation for a seamless shopping journey.
- Netflix VR Menu Interface (Academic)

Redesigned the Netflix browsing experience for Apple Vision Pro by creating an immersive spatial interface focused on intuitive navigation and cinematic content discovery.
- Studio.Antara (Freelance)

Developed the complete brand identity for an interior design studio, including logo, visual identity, brand guidelines, packaging, and social media creatives. Currently manage the brand's social media presence and edit reels while maintaining a consistent visual identity across digital platforms.
